Subject: RE: TCEQ Information Request - BOP Outfall 002
Attachments: BOP water drainage.pptx; BOP Outfall 002 Draft Supplemental Discharge Information (8-3).docx

Please find attached the requested written notification of the discharge that occurred at the BOP Outfall 002 between 16:31 and 23:31 on 8/2. This is an updated version of the written notification sent yesterday, and the attached table summarizes all discharges and available analytical results beginning 7/31.

Based on my discussion with Tina yesterday evening, we thought it would be useful to include a representation of the directional water spray in relation to the drainage areas to illustrate why we do not believe the firewater used in the emergency response activities entering the Outfall 002 conveyance contacted process equipment.

Please feel free to contact me with any questions.

Subject: TCEQ Information Request - BOP Outfall 002

Michelle,

TCEQ is requesting a written notification of each discharge at BOP Outfall 002 during the facilities response of the July 31, 2019 incident. Please include the estimated volume and the duration for each discharge. When the results are available please provide the analytical.

Email the notifications and analytical results to R12WQ@tceq.texas.gov and CC' Karina Rocha, Assistant Water Section Manager (karina.rocha@tceq.texas.gov).

Please do this as soon as possible, but no later than 11:30 AM, August 2, 2019.

Thank you,

Tina Tran
